---

## PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience building scalable, user-facing web applications across multiple domains. Strong background in React, TypeScript, and modern frontend architecture, with hands-on experience delivering production interfaces for fintech, Web3, and business platforms. Comfortable owning frontend systems end-to-end—from UI architecture and performance optimization to cross-functional collaboration and deployment.

---

## CORE SKILLS

### Frontend Engineering

- React, TypeScript, JavaScript (ES6+)
- Component-driven architecture & reusable UI systems
- Responsive and mobile-first design
- Performance optimization and rendering efficiency
- Tailwind CSS, modern CSS practices

## Product & Collaboration

- Translating product requirements into scalable UI solutions
- REST API integration and frontend data handling
- Accessibility and cross-browser compatibility
- Git & GitHub workflows
- Collaboration with designers and backend engineers

## Domain Exposure

- Fintech & payment-facing products
  - Web3 / protocol-focused platforms
  - Corporate and marketing-driven applications
- 

# PROFESSIONAL EXPERIENCE

## Frontend Developer

**Blockspace Innovation Technologies Hub** — Hybrid

*Dec 2024 – Present*

- Contribute to the design and implementation of frontend systems for internal and client-facing applications.
- Build reusable and scalable UI components using React and TypeScript.
- Collaborate with backend engineers and designers to deliver production-ready features.
- Participate in architectural discussions around frontend structure, performance, and maintainability.
- Support Web3-focused interfaces alongside general product development.

---

## Frontend Developer

**Guru Innovation Hub** — Part-time

*Jan 2022 – Present*

- Led frontend development for multiple web applications and product landing pages.
  - Translated UI/UX designs into clean, maintainable, and responsive interfaces.
  - Improved frontend reliability through validation, testing, and iterative refinement.
  - Delivered frontend solutions across different project types and business needs.
- 

## Assistant Project Manager

**Guru Innovation Hub**

*Jun 2023 – Present*

- Supported planning and delivery of digital products across cross-functional teams.
  - Coordinated timelines, task execution, and stakeholder communication.
  - Gained exposure to product decision-making, delivery workflows, and team coordination.
- 

## SELECTED PROJECTS

### SpacePay Landing Page

- Implemented a production-grade frontend for a fintech product, focusing on clarity, trust signals, and performance.
- Delivered a responsive, conversion-focused interface aligned with product goals.

## **MorLabs Protocol**

- Built frontend interfaces to communicate complex decentralized protocol concepts clearly.
- Balanced technical accuracy with accessible UI design and strong visual hierarchy.

## **GKG Investment Holdings**

- Developed a corporate-facing platform emphasizing professionalism, structure, and brand trust.
  - Implemented responsive layouts and clear content presentation for business users.
- 

## **EDUCATION**

### **Bachelor of Science (B.Sc.) — Computer Science**

University of Calabar

*2021 – 2024*

### **Computer Software Engineering**

AltSchool Africa
